TECHNICAL SKILLS

LANGUAGES  
Python C C++ JS HTML/CSS

DATA & ML  
SQL NumPy OpenCV Flask

SYSTEMS & DEVOPS  
Docker Git FastAPI POSIX

WEB3  
Solidity Web3.js React

DESIGN  
UI/UX

LANGUAGES

English **FLUENT**  
Hindi **NATIVE**

JK LAKSHMIPAT UNIVERSITY  
JAIPUR, RAJASTHAN · INDIA

Tech-savvy CSE student skilled in Python, C++, and systems programming — with growing expertise in Machine Learning, Web3, and DevOps. A quick learner with a strong problem-solving mindset and a solid grasp of system-level concepts.

01 EDUCATION

|             |                                                                                        |
|-------------|----------------------------------------------------------------------------------------|
| 2023 → 2027 | <b>B.Tech — Computer Science &amp; Engineering</b><br>JK Lakshmipat University, Jaipur |
| 2023        | <b>Senior Secondary (Class XII)</b><br>St. Teresa's School, Jaipur                     |
| 2021        | <b>Secondary (Class X)</b><br>St. Teresa's School, Jaipur                              |

02 PROJECTS

|    |                                                                                                                                                                                                                                                                                                                                                                        |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 | <b>BACKEND · SYSTEMS</b> · 2026<br><b>Simple HTTP Server</b><br><i>A lightweight, multi-threaded HTTP/1.1 server built in modern C++ from scratch. Utilises a custom thread pool for high-concurrency, low-latency request handling.</i><br>[C++] [Sockets] [POSIX Threads] <a href="#">GitHub</a>                                                                     |
| 02 | <b>DATA SCIENCE · LINEAR ALGEBRA · WEB</b> · 2026<br><b>Visual SVD Analyzer</b><br><i>An interactive web app demonstrating image compression via SVD. Visualises eigenface generation, energy retention, and rank-k approximations to illustrate PCA fundamentals.</i><br>[Python] [Flask] [NumPy] [SVD] [Computer Vision] <a href="#">GitHub</a> <a href="#">Live</a> |
| 03 | <b>COMPUTER VISION · IOT</b> · 2023<br><b>Attendance Monitoring</b><br><i>An edge-computed facial recognition attendance system combining OpenCV with a Raspberry Pi and a scalable FastAPI backend for seamless identity verification.</i><br>[Python] [OpenCV] [FastAPI] [Raspberry Pi] [PostgreSQL] <a href="#">GitHub</a>                                          |
| 04 | <b>BLOCKCHAIN · WEB3</b> · 2023<br><b>BlockLance</b><br><i>A DApp for decentralised freelancer reputation — blockchain for immutable performance data plus an off-chain ML oracle to calculate a verifiable Trust Factor for employers.</i><br>[Solidity] [Web3.js] [React] [Node.js] [ML] <a href="#">GitHub</a>                                                      |
| 05 | <b>DESKTOP GUI · FULL STACK</b> · 2023<br><b>Alumni Management</b><br><i>A full-stack system combining a CustomTkinter GUI with a FastAPI backend, facilitating professional networking through real-time messaging and mentorship tracking.</i><br>[FastAPI] [CustomTkinter] [WebSockets] [JWT] <a href="#">GitHub</a>                                                |

03 CERTIFICATIONS

- Programming for Everybody — Getting Started with Python
- Supervised ML: Regression & Classification
- Create Your UI/UX Portfolio with GitHub
- Using MySQL Database with PHP
- Introduction to CSS3 · HTML & CSS Crash Course

04 SOFT SKILLS

- Problem-solving & Analytical Thinking
- Strong Communication & Team Collaboration
- Time Management
- Quick Learner & Adaptive
- Attention to Detail
